< 06 > June 2005y.

TO ALL THE PARTICIPATING SCHOOLS

Shirak Regional Library administration and its staff are grateful to you for the support you made to the main library of Shirak region, Gyumri, Armenia. This most important literature and technical means are of a great help to the local language students and teachers. But mostly we are touched by your kind and willing attitude towards this affair.

We are also grateful to Candea college and to those 15 colleges, Nashuatec firm, the transporting company Tiemex Logistics, Wolters Noordhoff publishing house, Van Dijk Studieboeken and all those who took part in this project.

We have set all these books in a separate room which we have partly reconstructed, we have ordered shelves for them, we have already started to run the computers. The registration and the delivery of these books have been put on special librarians who know English, French and German.

We have strengthened the alarm system of the library.

It was enough difficult to set up the documents, to get and to deliver the goods from Yerevan.

We used the experience of Candea college, where the students and their teachers put the books into the boxes, we saw in the pictures how enthusiastically they were doing it. Here in Gyumri, the students from Lord Byron school came to the library with their English teacher Anahit Khachatryan and took out the books from the boxes and put them on the shelves, which was also a great help to our library. They did all this work with the same enthusiasm as their Holland friends.

Everything which was done was commented by TV and in Press.

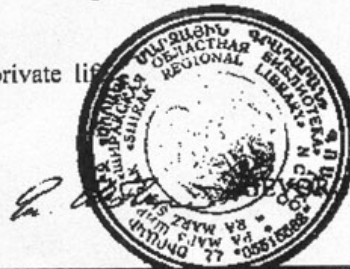

This cooperation brings a warm feeling of common human friendship which overcomes borders, distance and the difference between peoples.

We hope this cooperation, which was found by Candea college teacher Rene Beunk, will have its continuation.

We wish you success in your work and in your private life.

With most warm feelings.

Director of Shirak Regional Library

AMIRYAN
